by doing less...

Determine your goals Develop a plan

- Determine your goals and objectives for a website
- Define types of design style(s) you like by visiting other websites – type of navigation style, color scheme, photos, forms, etc.
- Define the information you would like to communicate on the website
- Contact Gospel Expo for a Free consultation
- Visit www.gospelexpo.com and register your church on our Church Directory for Free.

If you need any assistance or would like for a representative to visit you please call a consultant at 281-728-2077 today.

Meet your Church's online demands for members and the surrounding community. Provide a website that is informative, interactive and friendly. From listening to audio messages from the Pastor to online donations and tithing, Gospel Expo can help you reach your community.

Comprehensive Web Development Services

INFORMATION TECHNOLOGY

We are unique in the way we do business: We promote the gospel in the way we do business. We demonstrate integrity and trust in our business relations. We provide innovative technology solutions for the Christian community. God has given us the talent of Information Technology and we choose to use our gift in the Christian community. We have IT...Information Technology. We help you manage your website, so you can manage your ministry.

Communication Online is the future

REALIZING YOUR VISION

Gospel Expo is an online Christian Community dedicated to promoting the evangelistic efforts of the local church. We provide the technology needed to maintain your church's information online. If you don't know where you are going, any road will lead you there. So before you go, call Gospel Expo to catch the vision.

CATCH THE VISION

The role technology plays in a church depends on the role the church desires it to play.

Churches can embrace technology as a way to continue spreading the gospel, while maintaining an open line of communication with its members and the world.

SECURING YOUR VISION

Become a Church without walls! Websites are the fastest way to communicate your information to your congregation and the world. Allow your vision to be visualized in the world. Use technology to the best of its ability to edify God's Kingdom.
